

Product Information

Product Name **SCT Floor Finish 300**

Chemical Description Modified acrylic polymer

General Information **SCT Floor Finish 300** is a concentrated acrylic floor finish.

Typical Uses **SCT Floor Finish 300** is designed for use on no-wax and regular floors. **SCT Floor Finish 300** provides a beautifully transparent long lasting shine, stands up to the wear and tear of heavy traffic, helps restore the shine of older floors, helps prevent dirt from getting trapped in floor grooves to aid in floor cleaning, and contains no wax.

Dilution procedure Add water to **SCT Floor Finish 300** to desired solids level, and then add ammonium hydroxide to reach a pH of 8.0-8.5.

Example **SCT Floor Finish 300** 49.4%
Water 49.4%
15% solids **Ammonium Hydroxide** 1.2%

		Specifications
Physical Properties	Total Solids, %	29-34%
	pH (as is)	6.5-7.5
	Viscosity (Rev. #5 @ 20 rpm), cPs	Less than 500 cps
	Weight/gallon	8.4

Storage and Handling **SCT Floor Finish 300** is not believed to be hazardous material under current Department of Labor definitions. However, as with most acrylic polymers, it is recommended that normal safety precautions be employed when handling **SCT Floor Finish 300**.
