

Product Information

Product Name **SCT MS 40**

Chemical Description Modified aqueous emulsion of acrylic polymer

General Information **SCT MS 40** is a concentrated floor polish.

Typical Uses **SCT MS 40** can be used over a wide variety of substrates, conditions and maintenance procedures.
SCT MS 40 is ideal for schools, office areas and cafeterias where high intensity maintenance is not always available.
SCT MS 40 offers exceptional gloss and hold out over a specific wide range of solids. Low cost, bid type polishes can be produced as low as 10% solids.
SCT MS 40 provides superior recoat and lay down properties saving both time and money for end users.

Dilution procedure Simply add water to **SCT MS 40** to desired solids level.

Example 20% solids **SCT MS 40** 50.0%
 Water 50.0%

		Specifications
Physical Properties	Total Solids, %	38-42%
	pH (as is)	7.5-8.5
	Viscosity (Rev. #5 @ 20 rpm), cPs	Less than 500 cps
	Weight/gallon	8.76

Storage and Handling **SCT MS 40** is not believed to be hazardous material under current Department of Labor definitions. However, as with most acrylic polymers, it is recommended that normal safety precautions be employed when handling **SCT MS 40**.
