

# Product Information

**Product Name**    **Techmide 465**

**Product Description**    Monoisopropanolamine (MIPA) amide of Coconut Fatty Acid

**General Information**    Techmide 465 is a 96% Cocamide MIPA that is used in a wide variety of industries.

**Typical Uses**    Techmide 465 is typically used as a foam stabilizer and viscosifier with a lower melting point.

		Specifications
<b>Physical Properties</b>	Color (G)	3 max.
	% Free Amine, as MIPA	2.0 max.
	% Free Fatty Acid	2.0 max.
	Appearance	White to off-white flakes
	Melting Point	49 – 53 deg C

**Storage and Handling**    Techmide 465 is not believed to be a hazardous material under the current Department of Labor definitions. However, as with most surfactants, it is recommended that normal safety precautions be employed when handling Techmide 465.
